

The very best Man

The very very best man, working o so hard
Seems a very long time, slipping by so fast
Here comes the hardest part
Keeping up the good work, making it all last

Breathe in, breathe out

Keeping all my hopes up, for our new memories
without breathing heavy, without a remedy
Enjoy music and smile
The very very best man, proud of every mile

Breathe in, breathe out

It started early on and we never dared to speak
Live in secrecy, secrecy
Enjoy with might and main, keep on showing our smile
All hypocrisy, -pocrisy
